Inspection, Packaging Instructions and Decal Placement**D4022-041**

Quality Assurance to create the ARC (8130) that must have reference to the original manufacture's Serial Number (S/N) and the original Part Number (P/N). Original MUST be placed in box in protective sleeve.

Quality Control must ensure that a copy of the original ARC (8130) is in the same package as the pump for customer's reference.

Quality Control must identify on the box that both ARC's are in the box.

D4022-041 is to be packaged in original box, due to having original foam cut outs, to help protect the unit from any shipping damages.

Packaging to install ID sticker on one end of box to cover supplier's markings and Dart labels / stickers to cover any other identifications that are not Dart's.

Packaging to place D2729-4 Red Decal on pump body but ensure that the label does not cover any original supplier's identifications.
